To President Donald J. Trump,  
To the United States Secretary of State, and  
Members of the Administration,

## In Defense of Truth, Honor, and the Name: **Persian Gulf**

Based on public remarks by U.S. officials and recent media inquiries, it has come to our attention that your administration is considering the replacement of the historical and internationally recognized name “Persian Gulf” with an inaccurate, politically motivated alternative.

The term “**Persian Gulf**” is not a political opinion or a matter of preference. It is an internationally recognized historical and legal designation, with over 2,500 years of recorded usage in Persian, Greek, Roman, Islamic, and modern Western sources. The name is formally recognized by the United Nations and every major global geographic authority.

This issue is not exclusive to Iran—it also touches upon the United States’ own documented history.

American soldiers who lost their lives during the **Persian Gulf** War lie beneath headstones engraved with the **Persian Gulf**. Their medals, citations, and official military records carry this name with dignity. To erase it now would be to dishonor their sacrifice and undermine the factual foundations of history in favor of political appeasement.

In response to this alarming development, and as a public declaration of our commitment to truth, dignity, and historical integrity, Iran Revival Hub formally announces the inclusion of the color “**Persian Gulf Blue**” (#5E989B) into its branding.

This is not a cosmetic change. It is a statement of principle—a stand for:

- The territorial and cultural integrity of Iran;
- The defense of historical fact against politicization;
- Honoring the Iranian lives lost in the protection of our homeland; and
- Honoring American servicemen and women whose legacy bears the name Persian Gulf.

*This is our position. This is our truth.*

**Let it be known to your administration and to the world: The Persian Gulf is not just a name—it is a legacy.**

We urge you—and all future leaders—to uphold historical accuracy, abide by international law, and respect moral responsibility. Geography is not a political tool. It is part of humanity's collective heritage.

**You cannot delete history. You can only betray it.**

Respectfully,

Iran Revival Hub

*For Truth. For Freedom. For the Nation of Iran.*
